

LET'S DO A KITCHEN MAKEOVER!

REFINISH - REFACE - PAINT

REFINISHING: We will refinish the cabinets by stripping the existing finish by hand to bare wood. We then apply the new custom color to the cabinets in the home. We will take the door and drawer faces to our shop and refinish them there. We then return to the house (within the week) and hang the doors and reattach the drawer faces.

RE-FACING: We will bring new wood of customer's choice and apply to the cabinets in the home. We will then apply the same custom color to the new door and drawer faces and install them within the week.
